Agusta A109 Power Elite 2011

Maximum seating – 5/6passengers

Our Agusta 109E Power 'Elite' is a new generation light, twin-engine helicopter with state of the art technology that offers operational flexibility to meet the most demanding of customer requirements.

With outstanding levels of comfort brought about by an enlarged, air-conditioned cabin, enhanced sound proofing, large windows and an exceptionally smooth vibration-free ride this helicopter becomes the ideal aircraft for VIP transportation.

Executive Class has seating for up to four passengers or you can choose Business Class for a maximum of five; the flexibility of these configurations allows you to be seated in a way that suits your journey profile. After all it is essential that you are comfortable in a helicopter that, subject to its load, can fly at 175mph for 320 miles.

To book one our Agusta 109s please contact us:
