#### Ec155 Vvip

8 passengers  
Large luggage hold  
Vip rear cabin  
Retractable wheels  
4 aircraft available

### Eurocopter Ec155 B1 Vvip

#### Eurocopter EC135 - Twin-Engine Civil Helicopter

A light twin engine full IFR helicopter with an advanced cockpit and main rotor design offering superior performance for up to 8 VIPs.

A light twin-engine, powerful multi mission helicopter, the advanced cockpit design, modern avionics, Fenestron and bearing-less main rotor provides superior performance and outstanding manoeuvrability.

The EC135 gives a choice of 2 engines - the Turbomeca ARRIUS 2B2 or the Pratt and Whitney 206B2 models both featuring FADEC control. The aircraft has been designed with a high degree of crashworthiness provided by energy absorbing fuselage and seats as well as crash resistant fuel cells.

We have 4 of these aircraft available to charter the EC155 shown is based for convenient use for London airports and the South East of England although it can be repositioned to anywhere in the UK or France at very competitive rates.

To book one our EC155b1s please contact us:  
+44 (0) 1737 823 733 or email [ops@charter-a.com](mailto:ops@charter-a.com)

The wide cabin and roomy seating offers notable comfort for 8 VIP, or up to 9 passengers as a corporate shuttle. The low-noise and vibration levels create a pleasant and restful atmosphere for the travellers and crew and the oversized side-sliding doors enable passengers to easily board and exit. In addition, the helicopter's rear clamshell doors make luggage storage convenient and simple.

All aircraft chartered are flown on a full UK AOC and are fully insured - Visit [www.charter-a.com](http://www.charter-a.com)
